

### *Birth Parent Program*

At Infant of Prague, birth parents receive confidential and unbiased counseling to explore all options when considering a plan of adoption for their child.

**These services include:**

-  Pregnancy Education
-  Support and Counseling Services
-  Direct Assistance
-  Information on Legal Rights and Responsibilities.

### *About Our Name*

While we are not a religious organization, the agency took its name from a popular devotion to the Infant Christ Child of Prague, Czechoslovakia, dating back to the 16th century. Since the devotion stressed special blessings for children and families, it seemed an appropriate name for our agency. We are dedicated to serving the needs of children by building healthy families through adoption.
